## STATIC CLING LABELS & DECALS

New to Sticker Maker  
**LARGE**  
Window Clings

Static Cling Stickers, also known as stickers or "stickers", are labels printed on a thin, clear vinyl that adheres to glass and other smooth surfaces without the use of adhesives. These vinyl labels are often used for business window promotional displays which need to be changed frequently, as they can be easily removed without leaving any adhesive residue. "Clings" are also a common form of window decal or advertising window label. They are used for Glass Door Signs & Advertising. Static Clings do not use permanent adhesives, and will not cause damage to the underlying surface or a adhesive sticker sheet.
